

Recommended for industrial areas, which are subject to normal trafic. The floor has a high wear resistance, high chemical resistance and medium resistance to shocks. The floor is suitable for dry areas such as laboratories, corridor areas, electronic companies and hospitals, etc.

Benefits

- Excellent chemical resistance
- Resist 80°C water temperatures
- High abrasion resistance
- Seamless and hygienic finish
- Easy to clean and sterilise
- Low maintenance cost
- Low odour during installation

Scope of use

- Dry areas
- Laboratories
- Corridor areas
- Electronic companies
- Hospitals

For more colors please see separate color chart.

Appearance

Denpur[™] SL is a coloured smooth floor.

Life Expectancy

10 - 15 years.

Application

To provide a light to medium duty floor finish with high temperature and chemical resistance. Typical uses are ordinary industrial enviroments such as laboratories, electronic companies, hospitals and normal dry process areas.

Application conditions

Temperature 10°C to 30°C, best 15 to 25°C, max. moisture content in the concrete subfloor 5% by weight.

Temperature Resistance

Denpur[™] SL is resistant to temperature cycles up to 90°C dry heat and 80°C. wet heat. Extended periods at these temperatures and above will make material susceptible to chemical attack and abrasion wear.
