

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**1.1 Product identifier**

Trade name : Dencryl T1

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Resin for the manufacturing of acrylic floors

1.3 Details of the supplier of the safety data sheet

Company name of supplier : Dencoat International ApS
E-mail: info@dencoat.com
Website: www.dencoat.com
Telephone : +45 88 44 22 27
E-mail address of person responsible for the SDS : technical@dencoat.com

1.4 Emergency telephone number

In case of emergency call +45 88 44 22 27

2 SECTION 2: HAZARDS IDENTIFICATION**2.1 Classification of the substance or mixture****Classification according to Regulation (EC) No 1272/2008**Physical and chemical hazards:**Flammable liquids, Hazard Category 2 [Flam. Liq. 2]**

Highly flammable liquid and vapour. (H225)

Health hazards**Sensitisation - Skin, hazard category 1, 1A, 1B [Skin Sens.1]**

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

May cause an allergic skin reaction. (H317)

Skin corrosion/irritation, Hazard Category 2 [Skin Irrit. 2]

Causes skin irritation. (H315)

Specific target organ toxicity - Single exposure, Hazard Category 3, [STOT SE.3];

May cause respiratory irritation. (H335)

Environmental hazards:

The mixture does not pose an environmental hazard. No environmental effects are known or anticipated under normal conditions of use.

2.2 Label elements

Labelling according Regulation (EC) No 1272/2008

Pictogram

GHS02

GHS07

Signal word: Danger

Substances which influenced classification

Methyl methacrylate

2-ethylhexyl acrylate

2-hydroxyethyl methacrylate

Dibutyl maleate

Hazard statement(s)

H225 Highly flammable liquid and vapour.

H317 May cause an allergic skin reaction.

H315 Causes skin irritation.

H335 May cause respiratory irritation.

Precautionary statement(s):

Prevention

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P261 Avoid breathing vapours.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response

P308 + P313 IF exposed or concerned: Get medical advice/ attention.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

Disposal

P501 Dispose of contents/ container to an approved waste disposal plant.

2.3 Other hazards

The substance does not meet the criteria for PBT or vPvB mixtures according to Annex XIII of the REACH Regulation (EC) No. 1907/2006.

PBT substances (Persistent, Bioaccumulative, and Toxic substances).

vPvB substances (very Persistent and very Bioaccumulative substances).

Ecological information:

The substance does not have endocrine-disrupting properties for the environment according to Article 57(f) of the REACH Regulation, Commission Regulation (EU) 2018/605, or Commission Delegated Regulation (EU) 2017/2100.

Toxicological information:

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

The substance does not have endocrine-disrupting properties according to Article 57(f) of the REACH Regulation, Commission.

3 SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances:

Not applicable.

[1] Substance with a specified national maximum allowable concentration in the workplace environment. See section 8.

[2] Substance with a specified European Union maximum allowable concentration in the workplace environment. See section 8.

Full H phrases are specified in point 16 hereof.

4 SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Skin:

In case of contact with skin, immediately wash with plenty of water. Remove contaminated clothing. If skin irritation persists, seek medical advice.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

Eyes: If the product comes into contact with the eyes, rinse with plenty of water while gently separating the eyelids. Continue rinsing for at least 15 minutes. If irritation occurs, consult a doctor.

Inhalation: If vapors are inhaled, ensure access to fresh air. If breathing is difficult, consult a doctor.

Ingestion: If swallowed, do not induce vomiting unless directed by a doctor. Contact a doctor or toxicologist.

4.2 Most important symptoms and effects, both acute and delayed

Skin Contact: Immediate irritation, redness, itching. Delayed: Dermatitis with prolonged exposure.

Ingestion: Possible mouth and throat irritation. Delayed: Gastrointestinal distress or irritation.

Inhalation: Respiratory irritation, coughing, difficulty in breathing. Delayed: Potential long-term respiratory effects.

Eye Contact: Severe irritation, redness, tearing, pain. Delayed: Possible chronic eye irritation and damage.

4.3 Indication of any immediate medical attention and special treatment needed

In case of severe symptoms or any doubt, always seek medical advice. Immediately provide the product's safety data sheet or label to the physician.

5 SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media:

Co-ordinate fire-fighting measures to the fire surroundings water spray, foam, dry extinguishing powder, carbon dioxide (CO₂).

Unsuitable extinguishing media:

Jet water.

5.2 Special hazards arising from the substance or mixture

Highly flammable liquid and vapour. The product may be flammable as an aerosol or at high temperatures. It may react with certain chemicals to form hazardous compounds. In case of fire, it may emit toxic gases such as carbon oxides. Store away from heat sources, sparks, open flame, and reactive substances.

5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Do not let extinguishing water to reach drainage system, surface water and groundwater. Collect used extinguishing media.

6 SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Limit access of bystanders to the accident area until proper cleaning operations are completed. In case of major leaks, isolate the affected area. Avoid direct contact with the released product. Avoid inhaling dust. Use personal protective equipment. Ensure adequate ventilation.

For emergency responders: Ensure that the removal of the accident and its consequences is carried out only by trained personnel. Use individual protection measures.

6.2 Environmental precautions

In the event of a large release, take appropriate steps to prevent environmental spread. Prevent the product from entering the sewer system. Notify relevant emergency services.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

6.3 Methods and material for containment and cleaning up

Use absorbents such as sand, diatomaceous earth, or other appropriate materials to absorb spill. Avoid using water to dilute the product, which can increase the risk of contamination spread.

6.4 Reference to other sections

Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

7 SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Work in a well-ventilated area. Avoid creating aerosols and vapors of the product. When handling the product, use precautions to prevent accidental spillage. In case of a spill, immediately take actions according to safety procedures. Regularly clean tools and equipment used to work with the product. Store the product away from areas where its presence may pose a health or safety risk.

7.2 Conditions for safe storage, including any incompatibilities

Store in closed containers in a cool, dry place away from heat sources and sunlight. Avoid storing with incompatible materials (e.g., strong acids, bases, oxidizers). Regularly check containers for damage or leaks.

7.3 Specific end use(s)

No information on applications other than those listed in subsection 1.2.

8 SECTION 8: EXPOSURE CONTROLS/ PERSONAL PROTECTION

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Implement local or general ventilation systems to control air concentrations. Ensure that exposure levels comply with local safety standards.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

8.2.2 Individual protection measures, such as personal protective equipment

Respiratory Protection:

When there's a risk of dusts or aerosols, use protective masks with appropriate filters, preferably P2 or P3 type.

Eye Protection:

Use safety goggles or face shield with side shields to protect eyes from splashes. For work with large quantities of substances, full face protection is recommended.

Hand Protection:

Use chemical-resistant gloves, recommended materials include nitrile, latex, or other suitable barrier materials. Regularly check gloves for damage and replace as necessary.

8.3 Environmental exposure controls

Avoid releasing the product into the environment. Implement appropriate containment methods to prevent contamination of surface and groundwater. Store and dispose of the product in accordance with local environmental protection regulations.

9 SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state:	Liquid
Colour:	Depending on the pigment used.
Odour:	Characteristic
Melting point/freezing point:	Not available
Boiling point or initial boiling point and boiling range:	Not available
Flammability:	Highly flammable liquid and vapour.
Lower and upper explosion limit:	Not available
Flash point:	10 °C [Methyl methacrylate]
Auto-ignition temperature:	Not available
Decomposition temperature:	Not available
pH:	Not available
Kinematic viscosity:	Not available
Solubility:	Insoluble in water
Partition coefficient n-octanol/water (log value):	Not available
Vapour pressure:	Not available
Density and/or relative density:	Not available
Relative vapour density:	Not available
Particle characteristics:	Not available

9.2 Other information

9.2.1 Information with regard to physical hazard classes

No additional data.

9.2.2 Other safety characteristics

No additional data.

10 SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

The mixture does not exhibit excessive reactivity under standard use and storage conditions.

10.2 Chemical stability

The mixture is stable when stored and used according to the manufacturer's recommendations.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

10.3 Possibility of hazardous reactions

Hazardous reactions are not expected under normal use and storage conditions.

10.4 Conditions to avoid

Avoid extreme temperatures, open flame, and direct sunlight, which may affect the stability of the product.

10.5 Incompatible materials

Avoid contact with strong acids, bases, and strong oxidizers.

10.6 Hazardous decomposition products

In normal usage and storage conditions, no hazardous decomposition products are expected; however, in extreme situations such as a fire, the product may produce toxic gases such as carbon oxides, nitrogen oxides, or smoke.

11 SECTION 11: TOXICOLOGICAL INFORMATION**11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008**Acute toxicity:

ATE MIX oral (mg/kg): > 2000 Based on available data, classification criteria are not met.

The acute toxicity of the mixture (ATEmix) was calculated based on the relevant conversion factor provided in Table 3.1.2 of Annex I to the CLP Regulation, as amended.

Skin corrosion/irritation:

Causes skin irritation.

Serious eye damage/irritation :

Based on available information, classification criteria are not met.

Respiratory or skin sensitisation:

May produce an allergic reaction.

Germ cell mutagenicity:

Based on available information, classification criteria are not met.

Carcinogenicity:

Based on available information, classification criteria are not met.

Reproductive toxicity:

Based on available information, classification criteria are not met.

STOT-single exposure:

May cause respiratory irritation.

STOT-repeated exposure:

Based on available information, classification criteria are not met.

Aspiration hazard:

Based on available information, classification criteria are not met.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin Contact: Immediate irritation, redness, itching. Delayed: Dermatitis with prolonged exposure.

Ingestion: Possible mouth and throat irritation. Delayed: Gastrointestinal distress or irritation.

Inhalation: Respiratory irritation, coughing, difficulty in breathing. Delayed: Potential long-term respiratory effects.

Eye Contact: Severe irritation, redness, tearing, pain. Delayed: Possible chronic eye irritation and damage.

11.2 Information on other hazards**11.2.1 Endocrine disrupting properties**

The product does not contain substances included in the list established in accordance with Article 59 (1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1 % by weight.

11.2.2 Other information

Not applicable to substances.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

12 SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity

Toxicity of mixture

The mixture does not pose a threat to the environment. Under normal usage conditions, no known or anticipated environmental effects are present. To minimize long-term global pollution, consider reducing the use of single-use products, participating in recycling efforts, and preventing the product from entering water, sewage, or soil.

12.2 Persistence and degradability

No data for the mixture.

12.3 Bioaccumulative potential

No data for the mixture.

12.4 Mobility in soil

Insoluble in water. The mobility of the substance depends on their hydrophilic and hydrophobic properties and abiotic and biotic conditions of soil, including its structures, climatic conditions, seasons and soil organisms, mainly (bacteria, fungi, algae, invertebrates).

12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

12.6 Endocrine disrupting properties

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

The mixture is not classified as hazardous to the ozone layer. There should be considered the possibility of other harmful effects of the individual components of the mixture on the environment. (eg. the ability of disrupting endocrine , the impact of global warming potential).

13 SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Disposal methods for the product: dispose in accordance with applicable regulations. Do not introduce into drains. Residues store in sealed, steel containers.

Waste code **16 03 05*** organic wastes containing dangerous substances.

The product may be disposed of by incineration. Burning should be done in a location away from buildings and industrial facilities in a specialized furnace to burn waste chemicals.

Disposal methods for used packing: reuse/recycle/eliminate empty containers in accordance with the local legislation. Only completely emptied packaging can be recycled.

Packaging of the product be disposed of as hazardous waste code **15 01 10*** "Packaging containing residues of or contaminated by dangerous.

Legal basis: Directive 2008/98/EC, 94/62/EC.

14 SECTION 14: TRANSPORT INFORMATION

The mixture is subject to the regulations concerning the transport of dangerous goods as specified in ADR (road transport), RID (rail transport), ADN (inland waterway transport), IMDG (maritime transport), and ICAO/IATA (air transport)

Act of 13 June 2013 on the management of packaging and packaging waste (consolidated text: Journal of Laws 2024, item 927).

Act of 14 December 2012 on waste (consolidated text: Journal of Laws 2023, item 1587).

Regulation of the Minister of Economy of 5 November 2009 on specific requirements for aerosol products (Journal of Laws 2009 No 188, item 1460 as amended).

Notice of the Minister of Entrepreneurship and Technology of 15 April 2019 on the announcement of the consolidated text of the Regulation of the Minister of Economy on specific requirements for aerosol products (Journal of Laws 2019, item 975).

Act on the transport of dangerous goods of 19 August 2011 (Journal of Laws No 227, item 1367; consolidated text: Journal of Laws 2022, item 2147).

Government Statement of 13 March 2023 on the entry into force of amendments to Annexes A and B to the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR), done at Geneva on 30 September 1957 (Journal of Laws 2023, item 891).

15.2 Chemical safety assessment

The supplier has not assessed chemical safety. It is not required for the mixture.

16 SECTION 16: OTHER INFORMATION

Other sources of information:

IUCLID Data Bank (European Commission – European Chemicals Bureau).

ESIS – European Chemical Substances Information System (European Chemicals Bureau).

The provided information is based on current data and the manufacturer's knowledge and experience regarding the product. The Safety Data Sheet serves as guidance for safe handling during transport, distribution, application, and storage, but it does not certify the product's quality. The information is specific to the named product and may not apply to its use with other materials or in different applications. Users are responsible for complying with all applicable standards and regulations and bear responsibility for any misuse of the information in the Safety Data Sheet or improper use of the product.

Classification according to Regulation (EC) No 1272/2008		
STOT SE 3	H335	calculation method
Skin Irrit. 2	H315	calculation method
Skin Sens.1	H317	calculation method
Flam. Liq. 2	H225	Flash point

H (hazard) phrases specified in point 2 and 3 hereof:

H317	May cause an allergic skin reaction.
Skin Sens. 1	Sensitisation — Skin, hazard category 1, 1A, 1B.
H319	Causes serious eye irritation

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

Eye Irrit. 2	Serious eye damage/eye irritation, Hazard Category 2.
H335	May cause respiratory irritation.
STOT SE 3	Specific target organ toxicity — Single exposure, Hazard Category 3, Respiratory tract irritation.
H225	Highly flammable liquid and vapour.
Flam. Liq. 2	Flammable liquids, Hazard Category 2.
H315	Causes skin irritation
Skin Irrit. 2	Skin corrosion/irritation, Hazard Category 2
H302	Harmful if swallowed .
Acute Tox 4	Acute toxicity (oral), Hazard Category 4

Explanation of returns

ADN	Accord européen relatif au transport international des marchandises dangereuses par voies de navigation intérieures (European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways)
ADR	Accord européen relatif au transport international des marchandises dangereuses par route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
CAS	Chemical Abstracts Service (service that maintains the most comprehensive list of chemical substances)
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
CMR	Carcinogenic, Mutagenic or toxic for Reproduction
DGR	Dangerous Goods Regulations (see IATA/DGR)
DMEL	Derived Minimal Effect Level
DNEL	Derived No-Effect Level
EH40/2005	Workplace exposure limits (http://www.nationalarchives.gov.uk/doc/open-government-licence/)
EINECS	European Inventory of Existing Commercial Chemical Substances
ELINCS	European List of Notified Chemical Substances
GHS "	Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations
IATA	International Air Transport Association
IATA/DGR	Dangerous Goods Regulations (DGR) for the air transport (IATA)
ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods Code
index No	the Index number is the identification code given to the substance in Part 3 of Annex VI to Regulation (EC) No 1272/2008
MARPOL	International Convention for the Prevention of Pollution from Ships (abbr. of "Marine Pollutant")
NLP	No-Longer Polymer
PBT	Persistent, Bioaccumulative and Toxic
PNEC	Predicted No-Effect Concentration
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Règlement concernant le transport International ferroviaire des marchandises Dangereuses (Regulations concerning the International carriage of Dangerous goods by Rail)
STEL	short-term exposure limit
SVHC	Substance of Very High Concern

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Dencryl T1

Revision Date: 17.06.2025

Version 1.0

Print Date 17.06.2025

Date of last issue: -

TWA	time-weighted average
VOC	Volatile Organic Compounds
vPvB	very Persistent and very Bioaccumulative
WEL	workplace exposure limit

Training

Prior to working with the product you should be familiar with safety rules for handling the chemicals, in particular take proper workplace training. **People associated with the transport of hazardous materials in accordance with ADR** should be adequately trained to perform their duties (general training, bench and safety).
